Part X

Department of the Treasury

Fiscal Service, Bureau of the Public Debt

Offering of U.S. Savings Bonds, Series H Department Circular No. 905, 7th Revision, First Amendment

DEPARTMENT OF THE TREASURY

Fiscal Service

31 CFR Part 332

Offering of United States Savings Bonds, Series H

AGENCY: Fiscal Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This amendment of the offering circular for United States Savings Bonds of Series H, *i.e.*, Department of the Treasury Circular No. 905, Seventh Revision, (31 CFR Part 332), is being issued to reflect the latest improvement in the investment yields of these bonds.

EFFECTIVE DATE: May 1, 1981.

FOR FURTHER INFORMATION CONTACT: A. E. Martin, Office of the Chief Counsel, Bureau of the Public Debt (202) 376-0636.

SUPPLEMENTARY INFORMATION: This amendment of the offering circular for Series H bonds effectuates an improvement in their investment yield. On October 6, 1980, the Secretary announced that the investment yield of all outstanding Series H bonds would be improved by 1 percent per annum, compounded semiannually, effective November 1, 1980. On April 29, 1980, the Secretary announced that their investment yield would be further increased by an additional 1 percent per annum, compounded semiannually, effective May 1, 1981. This improvement in yield will be applied as follows:

Series H bonds bearing issue dates of June 1, 1952, to April 1, 1971, which were either in an extended maturity period on November 1, 1980, or entered their first extension within 6 months of that date, will earn interest at the rate of 7½ percent per annum, compounded semiannually, in their first semiannual accrual period starting on or after November 1, 1980, and at the rate of 8½ percent per annum, compounded semiannually, in their ensuing semiannual accrual periods, to their next maturity dates.

Series H bonds bearing issue dates of May 1, 1971, to October 1, 1971, will have their yields increased by 1 percent per annum, compounded semiannually, for the last semiannual interest period during original maturity and will earn interest at a rate of 8½ percent per annum, compounded semiannually, during their first extended maturity period.

Series H bonds bearing issue dates of November 1, 1971 to December 1, 1979, will have their yields improved by 1 percent per annum, compounded semiannually, commencing with the first semiannual interest period beginning on or after November 1, 1980, and by an additional 1 percent per annum, compounded semiannually, for their ensuing semiannual interest periods, to their next maturity dates.

This revision is effective under authority of Section 22 of the Second Liberty Bond Act, as amended (49 Stat. 21, as amended; 31 U.S.C. 757c) and 5 U.S.C. 301. The Bureau of the Public Debt, Department of the Treasury, has determined that (1) this revision does not require a notice of proposed rulemaking since it involves the fiscal policy of the United States, and (2) the revision, given its nature, is not a major rule for purposes of Executive Order 12291.

Dated: September 11, 1981.

Paul H. Taylor,

Fiscal Assistant Secretary.

PART 332—OFFERING OF U.S. SAVING BONDS, SERIES H

Accordingly, Department of the Treasury Circular No. 905, Seventh Revision, dated April 2, 1980, (31 CFR Part 332), is hereby amended by the removal of § 332.8(b) and Tables 1 to 57A and the addition of new § 332.8(b) and new Tables 1 to 121A, as follows:

§ 332.8 Extended terms and improved yields for outstanding bonds.

* * * * *

(b) *Improved yields*[4]*—outstanding bonds.* The investment yield on all outstanding Series H bonds is hereby increased as follows:

(1) *Bonds bearing issue dates of June 1, 1952, to April 1, 1971.* To a level of 7½ percent per annum, compounded semiannually, for the first semiannual interest period beginning on or after November 1, 1980, and to 8½ percent per annum, compounded semiannually, for the ensuing period to their next maturity dates.

(2) *Bonds bearing issue dates of May 1, 1971, to October 1, 1971.* By approximately 1 percent per annum, compounded semiannually, for the last semiannual interest period of their original maturity period and to 8½ percent per annum, compounded semiannually, during their first extended maturity period.

(3) *Bonds bearing issue dates of November 1, 1971, to December 1, 1979.* By approximately 1 percent per annum, compounded semiannually, for the remaining period to maturity, starting with the first semiannual interest period beginning on or after November 1, 1980, and by an additional 1 percent per annum, compounded semiannually, for the remaining period to maturity, starting with the first semiannual interest period beginning on or after May 1, 1981.

(4) *Other extensions.* The investment yield for any authorized extensions, other than as set forth in paragraphs (b)(1), (2) or (3) of this section, will be at the rate of 8½ percent per annum, compounded semiannually, unless such rate is changed prior to the commencement of the extension period. If a change in rate is made, the tables of redemption values and investment yields published herein for such extensions shall not apply.

* * * * *

BILLING CODE 4810-35-M

[4] See Appendix for summary of investment yields to maturity, extended maturity and second extended maturity dates under regulations heretofore and herein prescribed.

APPENDIX (cont'd)

Footnotes

1/ All yields are in terms of percent per annum, compounded semiannually. The first figure in each maturity period is the overall yield for that period at time of entry into period. Interest payments are on a graduated basis unless otherwise indicated, the full rate being received only if held to the end of the period (lesser rate if redeemed earlier). An "e" indicates payments on an approximately level basis. A "b" indicates increased interest on a bonus basis, that is, the full rate is received only if the bond is held to the end of the period (no increase if redeemed earlier). Rate increases within periods took effect at the beginning of the first full half-year interest period starting on or after the effective date as follows:

1959 - graduated improvements in rate to next maturity beginning June 1, 1959.
1965 - graduated improvements in rate to next maturity beginning December 1, 1965.
1968 - bonus improvement in rate to next maturity beginning June 1, 1968.
1969 - maximum rate to next maturity beginning June 1, 1969.
1970 - level and bonus improvements in rate to next maturity beginning June 1, 1970. In the case of .50b the increase is spread over the second 5 years of maturity period.
1973 - level improvement in rate to next maturity beginning December 1, 1973.
1979 - level improvement in rate to next maturity beginning June 1, 1979.
1980 - level improvement in rate to next maturity beginning November 1, 1980.
1981 - level improvement in rate to next maturity beginning May 1, 1981.

2/ Yield does not apply if prevailing rate for Series H bonds at time extension begins is different from 8.50 percent.

* The purpose of this table is to summarize the history of yields on Series H savings bonds. Because of the graduated nature of these yields this table does not contain sufficient detail for the calculation of individual checks.
